Dear IDA Member:

The 155th Annual Session will be held Thursday, May 4, through Saturday, May 6, 2017, in Cedar Rapids. **This year’s theme is “The Future Has Arrived”.**

Lectures, exhibits, and table clinics will be held at the Doubletree by Hilton Cedar Rapids Convention Complex.

There will be lectures led by exceptionally qualified and nationally-recognized speakers. All are outstanding speakers who will present current topics in dentistry. Dr. Gordon Christensen will be returning to our meeting this year. A new feature from last year, the Lunch and Learn Sessions, will be held again this year.

The exhibit hall will feature displays of the newest dental products and equipment by nationally-recognized manufacturers. Exhibits will be open for 1½ days (all day Friday and Saturday morning). Table Clinics will also be presented in the exhibit hall on Saturday morning.

The Exhibitors Reception will be held on Thursday evening in the Exhibit Hall. Please note the earlier start time – 4:00 p.m.

The New Dentists Reception will also be held on Thursday evening at the White Star Ale House. This event is by invitation-only for those dentists who graduated from dental school 10 years or less. You will need to RSVP for this reception.

The IDPAC/IDF Reception will be held on Friday evening at the Czech Museum. If you donate $250 to IDPAC or $300 to the Foundation, you and a guest will receive an invitation to attend.

You are encouraged to pre-register early to avoid the rush on-site and, more importantly, to save the additional on-site registration fees. Please encourage your staff to take advantage of online registration. By registering online, staff can avoid general registration fees. Course registration fees for some courses will still apply – look for details in this brochure. Also, remember that staff must print their badges and course passes. **Please note that course passes will be required for all paid and free courses for both dentists and staff.**

All housing reservations must be made online through the Cedar Rapids Convention and Visitors Bureau. The link to online housing is on the IDA website.

Take time today to plan your schedule and register for the courses and events. We hope you will join us in Cedar Rapids at the 2017 Annual Session!

Sincerely,

Dr. Thomas Peek
President, Iowa Dental Association
The Future Has Arrived

The Iowa Dental Association is pleased to bring the 2017 Annual Session to Cedar Rapids.

To find things to do, events, restaurants, shopping, etc., go to www.gocedarrapids.com

Register Early to Win Prizes!

As an added incentive for you to register early, weekly prizes will be offered.

Register online and you will be eligible* for a chance to win gift cards to restaurants in Cedar Rapids.

White Star Ale House**
A creative American Contemporary menu, American beer, American wines, spirits and soft drinks is what you will find at White Star Ale House. We serve a high-quality, creative, fresh, medium-priced menu in a very cool, contemporary, comfortable and casual facility.

Pig and Porter
Bata’s
Black Sheep Social Club
Popoli
Cobble Hill

The Early Bird Coffee Café**
The Early Bird was founded in 2011 with the intent of becoming a central part of our downtown community. In just a few short years, we have created a space to connect with our growing downtown core and the movers and shakers that make it thrive. We see metro area non-profits, start-ups, CEOs, government officials and creatives here daily - and together we are rebuilding and reshaping Cedar Rapids. We make coffee for the city that loves to drink it.

(Special drawings at New Dentist Reception)

The earlier you register, the more chances you have to win!

* Dentists only eligible to win
** Gift cards donated
REGISTRATION & COURSE ADMITTANCE
2017 ANNUAL SESSION

Dentists • Dental Hygienists • Dental Assistants

REGISTRATION

Advance Registration

Register Online at www.iowadental.org
Advance registration deadline
April 13, 2017 @ 5:00 p.m. (online, mail and fax)

Dentists and staff are encouraged to take advantage of online registration. Staff will not pay a registration fee if they register online and print & bring their badge (limited attendance course fees still apply).

REGISTRATION FEES-DENTISTS

Dentists pre-registered online or by mail or fax $125
Dentists registered on-site $200
Retired Life Dentists $0
Spouse and family $0
Dental students/Graduate students $0

Dentists must be members of the ADA. 2017 dues must be paid at time of advance registration or ADA members may register on-site upon presentation of a 2017 ADA membership card. Dentists may not register under any other category.

The following dentists will be exempt from paying the registration fee: Table Clinicians, Speakers, Graduate Students, Active Life Members (only for the year in which they are inducted into life membership), and Retired Life Members.

Non-member dentists $1107

Non-members of the ADA will be admitted upon payment of the non-member admittance fee. This is applicable to the current fee of national and state dues plus the $200 registration fee. By request, this fee (not including registration fee) may be applied to the dentist’s account for the current year dues upon payment of district dues within 30 days of the Annual Session. Non-members will receive a guest badge.

Military Personnel must be a member of ADA to be admitted or may pay the non-member admittance fee.

Dental Students will be admitted upon presentation of a 2017 ASDA membership, 2017 ADA membership card, or Student ID.

Spouse and family members who are dental assistants or dental hygienists should register as staff.* Dentists may not register as a spouse or family member.

REGISTRATION FEES-STAFF

Staff pre-registered online-prints & brings badge $0
Staff pre-registered by mail or fax $25
Staff pre-registered online-does not bring badge $25
Staff registered on-site $75

*Staff includes dental hygienists, dental assistants, office personnel, and dental lab technicians.

All staff, including IDAA and IDHA members, must register with the IDA to attend exhibits, table clinics, and courses at the DoubleTree Hilton.

Dental Lab Technicians will be admitted to exhibits; however, those not registered with an exhibit booth are prohibited from promoting their services on the exhibit floor. A Dental Lab Technician who is working at an exhibit booth should register as an exhibitor.

Dentists who are exhibiting must also be registered under the dentist category.

Cancellations

A $25 administrative processing fee will be charged on all cancellations per paid registrant. The cancellation fee applies to registration fees and course fees. The cancellation fee will be deducted from all refunds.

Registration Hours

Registration is located at the DoubleTree Hilton Cedar Rapids Convention Complex.

Thursday, May 4 6:30 a.m. – 4:00 p.m.
Friday, May 5 6:30 a.m. – 5:00 p.m.
Saturday, May 6 6:30 a.m. – 12:00 p.m.

Dentists: Bring your confirmation with you. Show your confirmation to pick up your packet of materials outside the Exhibit Hall. Dentist, spouse and family badges will be in your packet. Course passes and event tickets will be included in the dentist packet.

Staff: Bring your confirmation with you. Staff registering online must print and bring their badge. Badge holders will be available to pick up outside the lecture rooms. Staff registering by mail or fax may pick up their badge in the registration area.
**STAFF MUST PRINT COURSE PASSES WHEN REGISTERING ONLINE. (PAID AND FREE COURSES)**

Register Online at www.iowadental.org
Advance registration deadline
April 13, 2017 @ 5:00 p.m. (online, mail and fax)

---

**Continuing Education & Course Admittance**

**Continuing Education Credits for Dentists, Dental Hygienists and Dental Assistants**

**General Attendance**
The Iowa Dental Board will award three (3) CEUs for general attendance. DANB will award one (1) CEU for attending exhibits. The verification code for general attendance will be posted in the registration area.

**Table Clinics**
The Iowa Dental Board will award two (2) CEUs for attending table clinics. DANB will award one (1) CEU for attending table clinics. The verification code for attending table clinics will be provided in the exhibit hall.

**Courses**
The courses sponsored by the Iowa Dental Association are open to dentists, dental hygienists, and dental assistants. All courses sponsored by the Iowa Dental Association have been submitted for approval to the Iowa Dental Board for CEU credit for dentists, dental hygienists, and dental assistants. The number of approved CEU credits is listed with the course description.

**Continuing Education Recording Form**
All attendees will receive a Continuing Education Credit Recording Form. To receive credits, record the verification code announced at the end of each course. Completed forms should be deposited in the boxes outside the exhibit hall.

**AGD Members:** Sign course roster at each lecture you attend to receive AGD credit.

---

**Course Passes**
Course passes for paid and free courses will be placed in dentist registration packets. Dentists must show course pass to be admitted to the lecture.

Staff must print course passes when registering online. Paid and free courses.

Staff must show their course pass before being admitted to the lecture.

---

**General Information**

**Important Deadline Dates**
Advance registration .................. April 13 – 5:00 p.m.
After this date, attendees must register on-site.
Hotel reservations .......................... April 12
Cancellations/refunds .......................... April 20

Requests for refunds must be in writing and received two weeks prior to the Annual Session. No refunds after April 20. A $25 processing fee per registrant will be charged for cancellations.

---

- Two hours in the subject area of infection control
- Evidence of current certification in CPR (up to three hours may be claimed)
- Two hours in the subject area of dental radiography (required only if certified to take x-rays)

**CEU Requirements for Dental Hygienists and Dental Assistants Courses - Staff Courses**
You must complete a separate CEU card to receive credit for courses. You will receive the card when you enter the lecture room. You must be on time for the lecture or you will not receive the card and, therefore, will not receive credit. Record the verification code announced at the end of the lecture on the card and return the card to the course monitor at the end of the lecture to receive credit. In exchange for the completed CEU card, you will receive a proof of attendance card.

**Limited Attendance Courses**
See program schedule for the listing of limited attendance courses and course fees for dentists, dental hygienists and dental assistants.

**Course Handouts Online**
Handouts will be available online before the meeting. You may print the handouts for the courses you plan to attend and bring them with you to the Annual Session. Handouts will not be distributed on-site. Download handouts from the IDA website (www.iowadental.org) after April 15.
**Morning Coffee and Lunch**

For quick service, eat at the concession stand located outside the exhibit hall. The concession stand will be open during regular exhibit hall hours and will offer continental breakfast items and a variety of deli items.

**Parking**

**Self-Parking:** Guests may self-park in either the Convention Center Parking Garage on 1st Avenue, across from the Hotel or in the Five Seasons Parkade Garage, located next to the hotel at the corner of 1st Avenue and 5th Street. Both Garages attach to the Doubletree by Hilton Cedar Rapids Convention Complex by skywalk on the third level of the garages. The skywalk enters the hotel on the second floor, near the U.S. Cellular Arena. Guests should take the elevator at the end of the Skywalks to the lobby of the hotel and proceed into their event.

**Self-Parking Charges:** $.75 per hour (first hour free) with a daily maximum of $12. Guests pull a parking ticket when they arrive at the garage. Upon departure, guests insert this ticket back into the auto-attendant parking machine and the charge is calculated. Guests may pay the parking charge with cash or credit card.

**Hotel guests: overnight self-parking included in hotel room rate.**

**Valet-Parking:** Guests may valet park their cars from the front drive of the hotel, on 1st Avenue. When assisting guests with their parking, our Valet team will also direct them to their destination inside the hotel.

**Valet-Parking Charges:** $15 for the day or $22 for overnight.

---

**PARKING RAMP LOCATIONS**

A - Hotel Location: 350 1st Ave.
B - Five Seasons Parkade: 400 1st Ave.
C - Convention Center Ramp: 325 1st Ave.
2017 Annual Session Features

Questions? For additional information about the 2017 Annual Session, call the convention coordinator at 800-828-2181, ext. 104, or e-mail suzanne.lamendola@iowadental.org

Register Online at www.iowadental.org
Advance registration deadline April 13, 2017 @ 5:00 p.m. (online, mail and fax)

Exhibit Hall Hours
Friday, May 5 ........................ 8:30 a.m. – 5:00 p.m.
Saturday, May 6 ........................ 8:30 a.m. – Noon

Support our Exhibitors
Save your orders for the Annual Session. The exhibitors will offer show specials only available during the meeting. Visiting the exhibit hall is a valuable educational component of the meeting for the dentist and staff. Meet with the exhibitors, see new products, and obtain information about upcoming products.

The exhibitors are our industry partners so show your support. They are here to assist you; take advantage of this opportunity.

Built-in morning and afternoon breaks have been scheduled during the courses to allow time to visit the exhibit hall. Longer lunch breaks between courses have also been scheduled.

Free Exhibit Hall Pass available on Saturday.

FREE EXHIBIT HALL PASS
SATURDAY, MAY 6
8:30 a.m. to Noon
Available for dentists and staff
No CEU credits will be allowed for general attendance, table clinics, or courses.

Table Clinics
Saturday, May 6 ........................ 9:00 to 11:00 a.m.
Table clinics will be presented in the exhibit hall

Dentists Needed To Present Table Clinics
The Iowa Dental Association needs support from dentists to make our table clinics program a success. As a table clinics presenter, the $125 registration fee will be waived and you will receive 4 CEU credits. Remember that one of the easiest ways to present the information to your colleagues is by doing a Powerpoint presentation. An application to present a table clinic is included in this brochure. If you have questions or need ideas for a presentation, call Standing Committee Table Clinics Chair, Dr. Rodney Snavely at 515-494-3178.

2017 HOUSING – Cedar Rapids
Housing reservation deadline: April 12

ALL RESERVATIONS MUST BE MADE ONLINE through the Cedar Rapids Visitors and Convention Bureau.
To book your room online, click on the housing link on the IDA website.
Hotel blocks have been reserved at the following hotels; no telephone requests will be accepted; do not call individual hotels for reservations.
- DoubleTree by Hilton
- Residence Inn
Contact the Housing Bureau at 319-398-5009 with questions.

Course Descriptions
2017 ANNUAL SESSION

**The Christensen Bottom Line-2017**

This fast moving “bottom line” course includes the areas of dentistry with the most activity and change in any given year. It is easily understood and has numerous summaries that help attendees to interpret the ongoing advancements in the profession. The course encourages audience participation, and questions and answers and is presented in an enjoyable and humorous manner.

The hottest aspects in the following topics will be included in the planned program depending on the interests of the participants in your group, the popularity of topics at the time of your program, and the time available.

The following are potential topics, all of which may not be included in a specific course depending on time availability and audience interest.

1. State of the Profession – What changes are taking place?
2. CAD/CAM – Because of recent advancements, is in-office CAD/CAM for you?
3. Diagnosis and Treatment Planning – Are bioactive materials really better? Does remineralization work?
4. Endodontics – Endodontically treated teeth vs. implants with restorations on them
5. Esthetic Dentistry – The best composite, bonding materials, curing lights, and finishing techniques
6. Implant Dentistry – Advances in all diameters of root form implant surgery and prosthodontics, including measuring implant stability
7. Lasers – Do lasers work for periodontal disease?
8. Occlusion – Making more adequate impressions, conventional and digital
9. Operative Dentistry – The best methods to treat cracked teeth
10. Periodontics – Tissue management that actually works

**Behavioral Objectives**

On the completion of this course attendees should be able to:

1. List the most important and useful new techniques in the topics presented in this meeting.
2. List the most important and useful materials discussed in this presentation.
3. List the most important and useful new concepts discussed in this course.
4. Implement those aspects of the course most applicable to your practice.

---

**35 Endodontic Tips from 35 years of Practice**

**Part 1**

Endodontics requires a high level of technical skills and biological understanding. Dr. Olmsted will share his 15 steps for endodontic diagnosis and treatment planning; local anesthetics, access, and isolation; new rotary instrumentation with adaptive reciprocation. At the conclusion of this course, the participants will be able to:

1. List the 15 steps of diagnosis with emphasis of medical history, dental history, and radiographs.
2. Outline utilization of percussion, biting pressure, and palpation.
3. Describe the difference between CO2 ice, Endo ice, and H2O ice.
4. Understand the criteria for endodontic treatment vs. extraction.
5. Outline the progression of local anesthetics, access, and isolation.
6. List the steps of new rotary/reciprocation instrumentation.

**Part 2**

Endodontics requires a high level of technical skills and biological understanding. Dr. Olmsted will share his additional endo tips for biochemical irrigation; warm vertical obturation; restoration with fiber posts; and postoperative care. At the conclusion of this course, the participants will be able to:

1. Demonstrate the different techniques of biochemical irrigation.
2. Describe the different delivery procedures for obturation.
3. Understand restoration with fiber posts.
4. Identify the correct pain medications and utilization of antibiotics.
**Hands-on Workshop:**

**What's New in Endo: Biochemical Irrigation, Rotary Instruments, & Obturation**

Dr. John Olmsted will introduce you to continuing improvements with new biochemical irrigation, the latest in endodontic adaptive rotary/reciprocation files, and multiple obturation techniques. At the conclusion of this workshop, participants will be able to:

1. Demonstrate the various steps of biochemical irrigation.
2. List the steps of instrumentation with new adaptive rotary/reciprocation files.
3. Outline the multiple obturation techniques.

**Advanced Concepts in Restorative Direct and Indirect Dentistry**

For over 100 years, the standard of care for caries diagnostics has been the explorer and x-rays. Let’s all agree that if you are utilizing these as your solo tools for caries diagnostics, you are simply guessing way too much when to pick up the drill and equally, you are so limiting your patients on what truly you could offer them, both in prevention and early minimally invasive treatment. The am program will update the attendee with the latest in direct restorative approaches and equally important, how this builds more value and growth for each practice. The afternoon program tackles the questions of long term success by choosing the right ceramics and even more important, the appropriate cements. The program then transitions into treating cracked teeth and the options we face along with novel approaches to post and cores. This full day program will open your eyes as to where restorative dentistry is and where it is going along with practice building thoughts throughout the day.

**Highlight:**

- It’s time to put down your explorer and truly compliment your digital x-rays with the latest in caries diagnostics and offer new protocols to your patients
- Minimally invasive dentistry: New approaches, techniques and materials
- The key pitfalls in direct adhesion and how to avoid them, and you will be surprised
- Bioactive dentistry: Fact or Fiction and which materials are the game changers in our practice today from liners to cements.
- Cracked Tooth Syndrome and why treatment options are different from traditional asymptomatic cracks and how to decide treatment options

**Legal Check-Up**

**BrownWinick Health Law Group**

**AM SESSION**

9:30 a.m. – 10:00 a.m. OSHA Check-Up

Presenter: Brent D. Soderstrum, BrownWinick

What if an OSHA inspector shows up at your office to conduct an inspection? Will you pass with flying colors or will you face costly citations? This presentation will be covering OSHA regulations that apply to the dental industry and will provide you a checklist for you to take back to your office to see how you would fare if an OSHA inspector did show up.

10:00 a.m. – 10:45 a.m. HIPAA for the Dental Practice

Presenters: Adam J. Freed and Catherine C. Cownie, BrownWinick

Dental practices have come under increasing scrutiny from the U.S. Department of Health and Human Services Office of Civil Rights for alleged HIPAA violations. Learn how to avoid becoming the target of such an investigation.

10:45 a.m. – 11:30 a.m. Regulatory Issues for Dentists

Presenter: Rebecca A. Brommel, BrownWinick

Learn about addressing dental rules related to sedation, supervision, expanded functions and licensing and regulation requirements.

**PM SESSION**

1:30 p.m. – 2:15 p.m. Buying and Selling a Dental Practice

Presenter: Drew D. Larson, BrownWinick

Learn about the basics of stock versus asset sales, due diligence, taxes, and the general steps in the sale process.

2:15 p.m. – 2:45 p.m. Employment Issues Affecting Dentists

Presenter: Molly T. Driscoll, BrownWinick

Learn about how to avoid contracting pitfalls with business partners and mid-level providers and how to comply with recent updates to the Fair Labor Standards Act.
Maintenance of Dental Handpieces and Related Instruments.

Abstract:
Sterilization in dental settings has been an important topic for decades. This is especially true since the possible transmission of HIV, from a dentist to several patients, which made the headlines in the early 1990’s.

To that end, there are specific CDC recommendations that are paramount to proper instrument sterilization practices as well as State law and State Dental Board rules that necessitate compliance with CDC as a condition of licensure in the state. Proper dental instrument maintenance along with the various manufacturers’ recommendations for maintenance and sterilization often provides compliant infection control strategies. And proper maintenance of instrumentation often boasts of better instrument function and longer lasting equipment.

Educational Objectives:
Upon completion of this educational activity, the participant will be able to:

1. Understand the history of current sterilization guidelines
2. Understand and discuss key requirements of the CDC guidelines for dental settings
3. Understand clinical accountability to the sterilization guidelines
4. Implement proper maintenance and instrument sterilization techniques
5. Avoid common mistakes

The Changing Landscape of Dentistry: How Dental Laboratory Technology Affects Your Practice and Patient Care.

Digital technology has enabled a dramatic transformation in the relationship between dentists and the laboratory. The lab is no longer just the place where you send your impressions. With the influx of new materials and technology, along with more robust communication channels, the collaboration between clinicians and laboratory technicians has become more patient-centric, timely, and consistent.

In this course, we will review the digital process from both the practice and laboratory workflow. This will include best practices, material selection and appropriate use and application. We will also discuss the communication tools available and how to utilize them for the best patient outcomes. Finally, we will give participants the opportunity to experience some of the laboratory technology, including digital design, 3D printing, and milling.

Lunch & Learn
Endo Technology Update
Discussing the impact of microscopes, CBCT, and apex locators on root canal treatment.

Lunch & Learn
Silver Nitrate and Silver Diamine Fluoride: Indications for Use, Protocols and Limitations
There has been a recent resurgence in the use of silver products for the medical management of dental caries. While Silver Nitrate has been available in the United States for more than a century, Silver Diamine Fluoride has just recently been introduced. This presentation will review both silver products with a focus on indications for use and recommended protocols for application. Strategies for billing and reimbursement will be discussed and product limitations will be shared.

Lunch & Learn
Longevity of Direct Restorations
Have you ever wondered how long you can expect your restorations to last? This interesting presentation will help you answer that question and give the general practitioners tools to achieve longevity in direct restorations. Many factors can influence longevity such as time, ability of the practitioner, patient management and selection of materials. Learn how to manage these and other factors to increase the longevity of your restorations. Some questions that will be answered in the presentation include:

1. What does the clinician need to do before and after restoring a tooth to achieve longevity of a restoration?
2. How does selection and manipulation of the material during a dental procedure enhance the longevity of the restoration?
3. How does minimally invasive dentistry help in the longevity of a restoration?
4. What role does evidence-based dentistry play in understanding the best treatment option to achieve longevity of a direct restoration?
Lunch & Learn

Treatment Planning Considerations for the Class II Crowded Orthodontic Patient

Dr. Stock will present records of a growing Class II crowded patient seeking orthodontic treatment. She will break down the process of creating an orthodontic problem list, determining the diagnosis, setting goals, and formulating possible treatment plans. Then she will examine the advantages and disadvantages of the various treatment options and show the final result. This case will provide an opportunity to learn about multiple different ways a patient with these characteristics can be treated and reveal the thought-process an orthodontist might use.

Lunch & Learn

Kovanaze™ (tetracaine HCl and oxymetazoline HCl) Nasal Spray, the first product that allows for dental anesthesia to be administered through a nasal spray without using a needle. Kovanaze is indicated for regional anesthesia when performing a restorative procedure on Teeth 4 – 13 and -A – J in adults and children who weigh 40 kg or more. For full Prescribing and Important Safety Information, visit www.kovanaze.com.

Maintaining Your Sanity and Practice Viability as a Medicaid Provider

Course Description: Despite misconceptions and fears associated with being a Medicaid provider, treating this population can be rewarding. Provider hesitancy about treating the Medicaid population can be overcome, but it is difficult to assuage provider fear about the growing number of audits of those who treat Medicaid patients. Seasoned dentists are able to accurately document WHAT they do, but many were not taught to fully document the WHY of what we do, which includes the importance of utilizing appropriate diagnostic information to support your treatment decisions. This course provides clear, detailed recommendations for patient recordkeeping that are consistent with documenting medical necessity.

Members of the ADA’s Medicaid Provider Advisory Committee will share insights, opportunities and challenges regarding program integrity, compliance, fraud, advocacy and how better to safeguard your practice, while providing care to this growing population. Special emphasis will be given to the importance of proper documentation of medical necessity. It is in the best interest of the oral health of the public to ensure that there are adequate numbers of dental practitioners to treat this growing segment of our society. This course is a step in the right direction.

Learning Objectives: Participants will be able to:

- Implement efficient practice protocols to safeguard practice viability
- Protect oneself from unintentional non-compliance resulting in fraud allegations though accurate documentation of medical necessity
- Educate and recruit additional Medicaid providers through role modeling and practicing peer review

Removable Prosthodontics: Mystery or Mastery?

Removable prosthodontics can be a major frustration for many clinicians. From proper diagnosis, impression making, accurate records, to delivery of the final prosthesis so many issues can result in a less that optimal result leading to frustration for the clinician and the patient. This presentation will provide tools to assist clinicians in making removable prosthodontics a successful portion of their practice.

Learning Objectives:

- Review classifications of complete and partial edentulism.
- Review diagnosis and treatment planning for patients with complete and partial edentulism.
- Demonstrate impression making procedures for successful complete dentures.
- Demonstrate the steps required for successful complete dentures including accurate maxillomandibular relationship records, tooth try in, and delivery of the final prosthesis.
- Discuss complications and provide options to resolve problems.
- Review how to integrate implants to ensure success when treating completely and partially edentulous patients.

Update On Infection Control And Safety: How Do You Provide A Safe Dental Visit?

The objectives of this course are to explain the CDC’s guidelines and recommendations and discuss how dental practices in Iowa can maintain compliance with the law to provide a safe environment for patients and employees. The course will review the CDC’s Basic Expectations for Safe Care Summary and Checklist. Specific topics that will be covered include standard precautions, use of personal protective equipment, hand hygiene, latex sensitivities and allergy, operatory
preparation, instrument processing and sterilization, and management of sharps. You will also understand the OSHA regulations and how they apply to the dental practice.

After this course, participants will be able to
• discuss ranking of the CDC Guidelines and OSHA Regulations.
• implement an effective infection control program for their dental office.
• understand how to prevent transmission of bloodborne pathogens.
• implement safe and effective hand hygiene practices in the dental practice.
• implement respiratory hygiene and cough etiquette policies in the dental practice.
• understand the purpose and limitations of personal protective equipment.
• identify the signs, symptoms, diagnosis, and management of contact dermatitis and latex hypersensitivity.
• safely and effectively disinfect environmental surfaces
• safely and effectively reprocess contaminated dental instruments
• explain issues involved with dental water quality, including dental unit waterline biofilms and delivery of water of acceptable biological quality
• identify the infectious diseases that may be transmitted during dental care and take the appropriate precautions to decrease the risk of transmission.
• understand the OSHA Hazard Communication Standard

**Anatomy on Intraoral Radiographs and Anatomy on Pantomographs**

**Course Description:**
The course will cover radiographic anatomy of the landmarks of maxilla, mandible on intraoral radiographs and anatomy on pantomographs.
Dr. Gordon J. Christensen is Founder and Chief Executive Officer of Practical Clinical Courses (PCC), Chief Executive Officer of Clinicians Report Foundation (CR), and a Practicing Prosthodontist in Provo, Utah.

Gordon and Dr. Rella Christensen are co-founders of the non-profit CLINICIANS REPORT FOUNDATION (previously named CRA), which Rella directed for many years. Since 1976, they have conducted research in all areas of dentistry and published the findings to the profession in the well-known CRA Newsletter now called CLINICIANS REPORT.

Gordon’s degrees include: DDS, University of Southern California; MSD, University of Washington; PhD, University of Denver; and two honorary doctorates.

Early in his career, Gordon helped initiate the University of Kentucky and University of Colorado dental schools and taught at the University of Washington.

Currently, he is an adjunct professor at the University of Utah, School of Dentistry. Gordon has presented thousands of hours of continuing education globally, made hundreds of educational videos used throughout the world, and published widely.

Gordon and Rella’s sons are both dentists. William is a prosthodontist, and Michael is a general dentist. Their daughter, Carlene, is a teacher.

He is a member of numerous professional organizations.

Gordon is a Diplomate of the American Board of Prosthodontics, a Fellow and Diplomate in the International Congress of Oral Implantologists, a Fellow in the Academy of Osseointegration, American College of Dentists, International College of Dentists, American College of Prosthodontists, Academy of General Dentistry (Hon), Royal College of Surgeons of England, and an Associate Fellow in the American Academy of Implant Dentistry.

Some of his other memberships include: American Academy of Esthetic Dentistry; International Association of Dental Research; Academy of LDS Dentists; American Academy of Restorative Dentistry; American Academy of Operative Dentistry; and International College of Prosthodontists.

Dr. John S. Olmsted is a past President of the American Association of Endodontists and past General Chairperson of the American Dental Association 2004 Orlando, FL, Meeting. He has been active in practice, teaching, lecturing, and professional dental organizations for the past 37 years. John has presented 450 days of scientific sessions with international, national, regional, state dental meetings, and dental schools. He is emeritus in a group endodontic practice in Greensboro, NC, with Dr. Dennis L. Torney, Dr. Hal W. Mohorn, Jr., Dr. Steven G. Mohorn, Dr. Ken Morgan, Jr., Dr. Matthew Baird, Dr. Will Stanley, Dr. H. Wayne Mohorn, Sr. (emeritus), and Dr. Stuart B. Fountain (emeritus).

John received his DDS from the University of Iowa in 1975 and was awarded OKU. He earned his MS from the University of North Carolina in 1977 and is currently an Adjunct Professor in Endodontics at the University of North Carolina and the University of Iowa. He is certified by the American Board of Endodontics and obtained his Fellowship in the Academy of General Dentistry (FAGD) in 1984, Fellowship in the International College of Dentists (FICD) in 1989, Fellowship in the Pierre Fauchard Academy in 1993, and Fellowship in the American College of Dentists (FACD) in 1995.

Dr. Lou Graham is an internationally recognized lecturer extensively involved in continuing education for dental professionals, focusing on incorporating current clinical advancements through “conservative dentistry.” He emphasizes in his teachings the same concepts he practices: dental health diagnosis, treatment plans for medically compromised patients, conservative treatment, cosmetic dentistry, and customized approaches to periodontal care, implants and laser dentistry. Dr. Graham is a published author in many leading national and international dental journals. He is a member of the ADA, AADCD, AGD, Chicago Dental Society and Illinois Dental Association. Dr. Graham is a graduate of Emory Dental School. He is the former Dental Director of the University of Chicago’s Department of Dentistry. Dr. Graham is the founder of Catapult
Group, LLC, and he enjoys providing dental care at his private practice, University Dental Professionals, in Chicago, IL – Hyde Park.

Brenton D. Soderstrum is a member of Brown Winick. Brent practices primarily in the areas of litigation, construction law, OSHA and employment law. He is involved in all aspects of the construction industry - from negotiating contracts and job-site safety issues to employment issues to dispute resolution through mediation, arbitration or litigation. Brent also handles employment and litigation issues for other business clients.

Brent was appointed by the Governor of Iowa to the Commission of Persons with Disabilities from July 1, 2007 through June 30, 2009. Brent is a frequent speaker on issues that face businesses in and out of the construction industry.

Brent received his B.A. from Luther College in 1986 and his J.D., with high distinction, from the University of Iowa in 1989. He was admitted to the Iowa bar in 1989.

Adam J. Freed is a member of BrownWinick and is the current co-chair of the firm’s health law practice group. Adam provides legal services in the areas of health law, banking, corporate transactions, and agricultural law.

In his health law practice, Adam advises health care clients, including covered entities and business associates, with regard to compliance with the Health Insurance Portability and Accountability Act (“HIPAA”), the Health Information Technology for Economic and Clinical Health Act (“HITECH”), and implementation of the HIPAA Omnibus Rule. Adam has presented multiple seminars on the topic. Adam also advises a variety of health care clients regarding the State of Iowa’s Certificate of Need program, as well as state and federal licensure and other regulatory issues. Adam has been involved with numerous projects that successfully obtained Certificates of Need, including several cardiac catheterization labs, several radiation therapy projects, and several nursing facility expansions. BrownWinick represents the Iowa Dental Association, and as a part of that representation, Adam advises the Association on the rulemaking process and proposed legislation.

Adam graduated, summa cum laude, from the University of Northern Iowa in 1999, receiving his B.A. in Political Science. He received his J.D., with high distinction, from the University of Iowa in 2007. While at the University of Iowa, he was a member of the Iowa Law Review (2006-2007) and the Moot Court Board (2006-2007).

Adams is a member of the Polk County, Iowa State, and American Bar Associations. He is also a member of the American Health Lawyers Association and the Health Law Section of the American Bar Association. Adam has been selected for inclusion in Super Lawyers as a Rising Star in the area of Health Care. Adam was admitted to the Iowa bar in 2008.

Catherine C. Cownie is a member of Brown Winick. Since joining BrownWinick, Katie has practiced in the area of business and corporate law. In addition, she specializes in issues impacting health care providers and is currently the co-chair of the firm’s health law practice group. As a part of Katie’s health law practice, she represents a wide range of clients in the health care industry, including hospitals, long term care facilities, ambulatory surgery centers, home health agencies, community based providers, individual practitioners and practitioner associations. Her representation includes Iowa Certificate of Need related issues, federal and state licensure and regulatory matters, Medicare and Medicaid enrollment and changes of ownership, and issues surrounding Medicaid Credible Allegations of Fraud and other billing related disputes. As part of her practice, Katie also provides guidance to health related businesses on federal and state privacy laws. Her privacy law experience includes assisting clients with HIPAA and HITECH compliance and responses to audits and investigations related to alleged breaches.

Katie received her B.A. in Psychology from Chaminade University in Honolulu in 1996. She received her J.D. from the University of Iowa College of Law in May of 1999 and was admitted to the Iowa Bar in 1999. Katie is a member of the Iowa State Bar Association having served on the Board of Governors of that organization from 2011-2013. She is also a member of the American Health Lawyers Association, the Iowa Society of Healthcare Attorneys, the Iowa Association of Community Providers, the Iowa Alliance in Home Care, the Polk County Bar Association and the Polk County Women Attorneys. Katie serves on the Board
Rebecca A. Brommel is a member of Brown Winick and has served as the firm’s Chair of the Recruiting Committee and the Marketing and Business Development Committee. Becki assists clients in the area of litigation, administrative law and health law. Becki has represented clients in state and federal court, in various state administrative tribunals and in arbitrations. Becki’s litigation experience includes business contract disputes (including covenants not to compete and declaratory actions), derivative actions, business dissolutions, seller-purchaser disputes, collection matters, business lease disputes, health care related disputes, request for proposal challenges and judicial review of administrative actions. In addition, Becki has assisted clients in requesting changes of administrative rules and other actions involving state administrative tribunals, including professional licensure proceedings for nurses, dentists and physicians, challenges to citations at health facilities, fraud and abuse related proceedings and proceedings involving actions by a variety of state agencies. Becki has serviced clients in a number of industries, including health care, agriculture, manufacturing, construction and various services industries.

Becki has written articles regarding document retention policies, spoliation of evidence issues, the Red Flags Rule and other litigation-related topics. Becki has also spoken at various seminars regarding the importance of document retention policies, document retention issues in litigation and ethical issues for attorneys. Becki has also provided education on legal issues to various health care professionals and entities.

Becki graduated, magna cum laude, from Drake University in 1998, obtaining her B.A. in Political Science and Sociology. She received her J.D. in 2001 from Drake Law School, graduating with highest honors. At Drake Law School, Becki was Order of the Coif and a recipient of the Dwight D. Opperman Scholarship. Becki was admitted to the Iowa bar in 2001.

Drew D. Larson is a member of Brown Winick and practices primarily in the areas of corporate formation and transactions, health law, intellectual property, estate planning, and tax. He represents business clients in various aspects of their operations, including startup organization, financing, acquisitions, contract drafting and negotiation, succession planning and regulatory compliance.

Drew has a particular passion for working with technology startups, manufacturers, health care providers and other entrepreneurs, working with them to structure their business, protect their intellectual property, and remove obstacles so that businesses can continue to grow. Drew views his role as an attorney as a trusted advisor and partner with his clients, helping to assess their legal needs and working to provide the most simple, straightforward and complete answers as possible.

He also works with many closely held business owners and farmers to prepare for transitioning their businesses to future generations in a manner that accomplishes the owners’ personal and financial goals. Drew believes that estate planning is about more than just minimizing taxes, but is also about transferring values and ensuring that future generations are prepared for the responsibilities that come with owning a business or managing significant wealth.

Drew graduated, magna cum laude, in 2006 from Iowa State University with a B.S. in Accounting and Political Science. In 2008, Drew received his J.D., with distinction, from the University of Iowa. While at the University of Iowa, Drew served as newsletter Editor and Treasurer of the Environmental Law Society and was a Hammond Chapter Member of Phi Alpha Delta. Drew was admitted to the Iowa bar in 2009.

Molly T. Driscoll is an associate attorney with Brown Winick and has a general practice including, but not limited to, administrative law, business and corporate law, employment and labor law, and health law.

Molly graduated from Loyola University of Chicago: Marcella Niehoff School of Nursing in 2006, receiving her B.S. in Nursing. While at Loyola, Molly was active in Alpha Sigma Alpha. Molly worked as a registered nurse in the Neonatal Intensive Care Unit in Chicago, Illinois and San Francisco, California from 2006-2011. During her nursing career, Molly obtained certification as a registered nurse clinician specializing in neonatal intensive care. She was also involved in the National Association of Neonatal Nurses, on the Associ-
ate Board at the Evanston Hospital and on the Young Alumni Board at Loyola University of Chicago.

Molly received her J.D. in 2014, high honors, from Drake University. She also received her Master of Public Administration in 2014 and was inducted into the Pi Alpha Alpha Honor Society for public affairs and administration. While at Drake University, Molly was involved in the C. Edwin Moore Inn of Court, Delta Theta Phi, and the Health Law Student Association. While in law school, Molly was a student attorney at the Drake Legal Clinic – Transactional Law Clinic and was a Legislative Intern at the Iowa General Assembly, working on legislation related to Iowa’s healthcare exchange and implementing the Affordable Care Act.

Molly is a member of the Polk County, Iowa State and American Bar Associations. She is also a member of the Iowa Society of Healthcare Attorneys, the American Health Lawyers Association and the Polk County Women Attorneys. Molly was admitted to the Iowa bar in 2014.

Doug Mayer is currently in his 24th year in the dental handpiece business. He is an expert in dental handpiece design, use, maintenance, and infection control. He has designed several current generation handpiece systems as well as written the handpiece maintenance and infection control protocols for the two largest handpiece companies in North America. Doug has trained over 5,000 dealer Sales and Service personnel in the USA and Canada, countless dental offices, as well as the sales forces for two of the top handpiece manufacturers in the dental industry.

Doug received his Bachelor’s Degree from the University of Iowa in Political Science, with an emphasis in Public and Constitutional Law. Doug was an intern for the United States House of Representatives for the 4th district of Georgia, focused on public law research. Prior to that, Doug furthered his mechanical aptitude by obtaining his auto mechanics degree during high school from DeKalb College, Clarkston, Georgia.

Author Disclosure

Doug Mayer is currently with Dentsply Sirona’s Midwest division as a Training and Product Specialist. Doug was the past Director of Training and Product Specialist for KaVo USA Dental Corporation, as well as a Territory Manager for both Midwest and KaVo.

Dr. Joel Schieck began his career practicing in the ‘Valley of the Sun’, in both Phoenix and Scottsdale from 1981-1990. In September of 1990, he opened his office in Austin, MN, formerly the office of Dr. Dale Mlinar. Throughout the years, he has welcomed new patients, while adding the offices of Dr. Donovan Clausen (1994) and Dr. Charles Schindler (1996) upon their retirement from private practice.

An Austin native, Dr. Schieck received his B.A. from Luther College in 1977 and his Doctor of Dental Surgery from the University of Minnesota in 1980. Dr. Schieck recently completed a post graduate year-long course at the University of Minnesota in Esthetic Dentistry and in Occlusion. He is a member of the American Dental Association, The American Academy of Facial Esthetics, the Minnesota Dental Association, the Austin Dental Society, and has provided care for the Donated Dental Services program for years.

Dr. Luke Hamann
Endodontist - Dubuque, IA
Dental School - Southern Illinois University (2007)
AEGD - University of Michigan (2008)
Endodontics - University of Iowa (2010)
Current president of the Iowa Association of Endodontics
Current president of the Dubuque District of the Iowa Dental Association

Dr. Michael Kanellis is Associate Dean for Patient Care at the University of Iowa College of Dentistry. Prior to his appointment to this position March 1, 2005, he was Professor and Chair of the Department of Pediatric Dentistry. Dr. Kanellis attended the University of Iowa where he received his DDS in 1979, his Master’s Degree in Pediatric Dentistry in 1982 and his Master’s Degree in Dental Public Health in 1995. Dr. Kanellis spent thirteen years in private practice before joining the faculty at the University of Iowa on a full time basis in 1994.

Dr. Arwa Owais joined the University of Iowa College of Dentistry & Dental Clinics in 2013 as an associate professor in the Department of Pediatric Dentistry.
Prior to coming to Iowa, she was the vice dean of the College of Dentistry at Jordan University of Science and Technology from 2010-2013 and the head of the pediatric dentistry section at King Abdulla Hospital, Jordan. Dr. Owais has several publications in the area of children’s oral health as well as other areas in pediatric dentistry, and her main research interest is the medical management of caries using silver compounds.

Dr. Natalia Restrepo-Kennedy, originally from Colombia, SA, completed her dental degree in Colombia in 1988. She received her Masters’ Degree in Operative Dentistry from the University of Iowa in 2012. Currently she is the Course Director of Dental Anatomy and Operative Dentistry I, courses for freshman dental students. She works as a clinical instructor for sophomore and junior clinics and as a clinician in the faculty practice at the University of Iowa College of Dentistry and Clinics.

Dr. Suzanne Stock received her DDS from the University of Iowa College of Dentistry in 2007 and her MS and orthodontic certificate from the University of Iowa College of Dentistry Department of Orthodontics in 2009. She became board certified by the American Board of Orthodontics in 2010. She is a solo practitioner with private practices in Iowa City, Fairfield, Washington, and Williamsburg, Iowa.

Yvette Mollsen is a Territory Sales Representative for St. Renatus. She received a Bachelor of Arts Degree from California State University San Marcos. Ms. Mollsen has worked as a Sales Representative and Sales Trainer in the dental industry since 1998.

Dr. Steven Geiermann is a retired USPHS Captain with experience in the Indian Health Service and Federally Qualified Health Centers. Dr. Geiermann was a HRSA regional dental consultant for more than a decade while building a strong oral health infrastructure aligned with overall health care. He currently serves on the ADA’s Council on Access, Prevention and Interprofessional Relations.

Dr. Charles Czerepak graduated from Fairleigh Dickinson University Dental School in 1977. He is the founder of Pine Dental Care, a community based private practice dedicated to the dental and oral health of children. He has served as the president of the Medical/Dental Staff at the former Children’s Memorial Hospital, interim head of the Division of Dentistry at CMH and is a trustee of the American Academy of Pediatric Dentistry.

Dr. Allen Finkelstein is the CEO of Bedford Healthcare Solutions. He has been the chief dental officer at Prev/MEDOnsite HealthCare Services and AmericanChoice-Medicaid Division of United Health Group. He has served as a dental consultant for Horizon Blue Cross/Blue Shield of New Jersey.

Dr. Sidney Whitman graduated from the New York University School of Dentistry in 1968. He completed his postgraduate studies in pediatric dentistry at Temple University School of Dentistry. He works in a 130-person practice that treats children and adolescents, including Medicaid patients.

Dr. Nancy Chaffee is a 1985 graduate of the University of Iowa College of Dentistry. After several years in private practice as a general dentist, she returned to the University of Iowa College of Dentistry where she received her certificate and Master’s degree in Prosthodontics in 1990. She received her American Board of Prosthodontics certification in 1993. Since 1988, Dr. Chaffee has held academic appointments at the University of Iowa, the Ohio State University, the University of Nebraska Medical Center and, most recently, the University of North Carolina where she served as Graduate Prosthodontics Program Director until 2001. She is currently in private practice in Apex, NC. Dr. Chaffee is an active member of the American Dental Association, the North Carolina Dental Society, the American College of Prosthodontists, and the American Academy of Fixed Prosthodontics.

Dr. Sherry R. Timmons

B.A., Augustana College (1991)
D.D.S., University of Iowa (1995)
Certificate in Oral and Maxillofacial Pathology and Ph.D. in Oral Science, University of Iowa (2001)
Certificate, GPR Residency Program, Rush Presbyte-
Dr. Timmons became a faculty member in the Department of Oral Pathology, Radiology and Medicine (OPRM) in 2002. Dr. Timmons teaches first and third year dental students in Oral Pathology and the Oral Diagnosis Clinic; treats general dentistry and oral medicine/head and neck pain patients within the faculty practice; and is the Director of the Advanced Education Program in Oral and Maxillofacial Pathology. Dr. Timmons has also previously served as The University of Iowa College of Dentistry Health and Safety Officer.

Dr. Trishul Allareddy is a Professor at The University of Iowa. He joined The University of Iowa, College of Dentistry and Dental Clinics in 2008 as a faculty member after completing his residency there and having spent a little more than a year as a consultant to a private imaging company. He is currently the Program Director for the Advanced Education Program in Oral and Maxillofacial Radiology (AAOMR) and the Director of Radiology at the College of Dentistry. He serves on several collegiate, university, national, and international committees. He is currently the American Dental Association and American Academy of Oral and Maxillofacial Radiology representative to DICOM. He is the co-chair for Working Group 22 (Dentistry) of the Digital Imaging and Communication in Medicine (DICOM) Standards Committee, where he also serves on the Leadership, Outreach, and Education Committee and is the co-chair of the Standards and Codes Committee for the AAOMR. He is a reviewer for eleven peer-reviewed Journals in dentistry and radiology. His main expertise and interest is in the use of technology in dentistry. His research areas are related to reduction of the radiation dose to the patient, healthcare outcomes, dental education, big data share, and the role of advanced imaging in the oral and maxillofacial regions as it applies to dentistry.

Online Registration  
THINGS YOU NEED TO KNOW

ONLINE REGISTRATION DEADLINE:  
April 13, 2017 @ 5:00 P.M.  
(Advance registration deadline by mail or fax is also April 13)

Registering online is a convenient and time-saving process. Following these steps will ensure that your online registration will be efficient and easy.

PLEASE! Read this information before registering online:

1. Do not register online if you do not have a working printer immediately available. You will need to print confirmations, staff badges, and staff course passes.
2. If unsolicited e-mails are set up to go directly to your junk e-mail, set up info@iowadental.org as an accepted e-mail address. You will not receive a confirmation if the e-mail address is not accepted. (You must bring confirmation with you to pick up annual session materials.)
3. Register using your full name. Do not use nicknames. This will ensure that your CEU credits will be processed accurately.
4. If you do not have an ADA #, enter your license # or another 9-digit number.
5. At the end of the registration process, you will receive a message on the screen that reads “You have successfully registered”. Click to continue.
6. Wait for the screen to appear with a box that reads “Click here to print badges and course passes”. The staff badges and course passes will show on the screen and you must print them. Do not close out this page without printing the badges and course passes as the badges and course passes will not be saved in the system. The badges and course passes are not sent to you by e-mail.
7. You will receive a confirmation by e-mail. This is generated automatically by the system. You should receive this within a few minutes of your successful registration. Print the confirmation and copy for each person listed.
8. If you have any problems with registering online, such as not receiving a confirmation or not being able to print badges, call the IDA immediately for assistance (800-828-2181). (A minimal fee may be charged for administrative services provided after online registration closes on April 13.)

Please remember - you must print your staff badges before you close out the registration screen. If you do not bring your staff badges, there will be a $25 processing fee on-site to print the badges. Course passes and event tickets for dentists will be included in the registration packet.

Staff who register online and print out their badge may pick up a pink badge holder outside the lecture rooms.

Attention: Dental Assistants/Dental Hygienists
All dental assistants and dental hygienists must register with the Iowa Dental Association to attend exhibits, table clinics, or courses sponsored by the IDA. These events will be held at the DoubleTree Hilton. Being registered with the IDAA or IDHA will not admit you to these events.

If you register online, there is no fee if you print your badge and bring it with you. If you do not bring the badge with you, there is a $25 fee. You must pick up a pink badge holder at the DoubleTree Hilton.
$25 registration fee by mail or fax. If you register by mail or fax, badges may be picked up at the DoubleTree Hilton.
$75 on-site registration fee.
Advance registration deadline is April 13, 2017 at 5:00 p.m.
(this includes online, mail and fax).
Questions? Contact the Iowa Dental Association at 800-828-2181 or info@iowadental.org

Register online at www.iowadental.org

General registration questions may be directed to info@iowadental.org.

Dentists:
When registering online, please note there are two separate categories for ADA Member Dentists.

ADA Member Dentist (11+ years in practice)
ADA New Member Dentist (10 years or less in practice)
Please be sure to register under the correct category.

APPLICATION FOR PRESENTATION OF A TABLE CLINIC
IOWA DENTAL ASSOCIATION ANNUAL SESSION

SATURDAY, MAY 6, 2017 / 9:00 – 11:00 AM
DOUBLETREE BY HILTON CEDAR RAPIDS CONVENTION COMPLEX

DEADLINE TO SUBMIT APPLICATIONS: APRIL 13, 2017
Table Clinics are an important aspect of our state dental meeting. This is your opportunity to share knowledge at a one-on-one level. Your registration fee for the Annual Session will be waived. Table clinics will be assigned on a first come, first served basis, with priority given to dentists. Table clinic applications will be accepted on availability of space capacity. To qualify to present a table clinic, dentists must be members in good standing with the American Dental Association.
Clinic set-up time: 7:30 – 8:30 a.m. Judging starts at 8:30 a.m.
Clinicians should limit presentations to 3-5 minutes for judges.

Iowa Dental Association
Table Clinics Procedures and Regulations for Clinicians

1.) Table Clinic applications must be submitted to the IDA by April 13. Applications will be accepted on availability of space capacity.

2.) Table clinics present basic clinical and research information related to the practice of dentistry using photographs, charts, diagrams, narrative materials, Powerpoint presentations, and poster boards.

3.) All table clinic applications are reviewed by the Table Clinic Chairperson for content, quality of work and relevancy to the general membership. The chairperson accepts those applications which, in his/her judgment, best relate to the improvement of the health of the public and the science and art of dentistry. The IDA Table Clinics chairperson reserves the right to reject or cancel the appearance of any person or to reject the material submitted for exhibition.

4.) Clinicians must be at their table during the assigned times. Set up for the table clinics will be one hour prior to judging start time on assigned date.

5.) The IDA will provide a 30” wide x 6’ or 8’ long x 42” high table, stools, and electrical outlet at no cost. A sign with the clinic number, title of presentation, and names of clinicians will also be provided. All A-V equipment must be brought by the clinician.

6.) While commercial organizations may sponsor table clinics, these must be purely scientific and devoid of commercialism. Advertising, sales or solicitation are not permitted in the table clinic presentations. Violation of this policy will result in immediate closure and removal of the table clinic from the area.

7.) Trade Names: Promotion of any product or service by trade name is absolutely prohibited. Drugs and products mentioned in the presentation generally should be identified by chemical formula or by generic name. Trade names may be used for identification and classification purposes only. Should the use of trade names be advantageous to the attendees’ understanding of the presentation, the rationale should be submitted in writing to the table clinics chair (30) days in advance of the clinic requesting approval.

8.) Film/Video Production: Daylight projection of filmed materials is permissible, but sound devices may not be used unless accompanied by individual earphones.

9.) Patient Demonstration: Demonstrations involving procedures on patients or live models generally will not be permitted unless given prior written approval by the Table Clinics chair. Only if, in the opinion of the chair after consultation with representatives of the appropriate scientific and legal agencies of the Iowa Dental Association, such demonstrations do not violate local law and would contribute significantly to the advancement of the art and science of dentistry will such demonstrations be allowed.

10.) Handouts are the responsibility of the clinician. The IDA will not pay to duplicate handouts.

11.) The IDA is not responsible for any loss or damage to the clinician’s material or equipment.

12.) Table clinics will be judged by a panel of two judges selected by the Table Clinics Chair. Standard evaluation forms provided by the IDA will be used to judge the clinics. Judging will start one-half hour prior to clinics start time. Clinicians are requested to limit their presentations to 3-5 minutes for the judges.

13.) Certificates and Awards: Each clinician will receive a participating certificate. Certificates of recognition will be presented to the clinicians chosen as honor clinicians. Returning Honor clinicians will receive plaques. Dentists, dental hygienists, and dental assistants will receive (4) CEU’s and a continuing education card.
The Iowa Dental Association invites you to the 2017 Exhibitor’s Reception!

Thursday, May 4, 2017
4:00 p.m. to 6:30 p.m.

Doubletree by Hilton
Convention Complex
Exhibit Hall

Join us for a fun evening of good food, drink, and an opportunity for one-on-one time with Exhibitors and your colleagues!
The University of Iowa College of Dentistry and the Iowa Dental Association invite you to participate in the College of Dentistry and IDA/Exhibitors Golf Tournament. Come test your skills on the links and share in the fun and fellowship.

Cost is $75.00, which covers greens fees, golf cart, and prizes.
Check-in time at the golf course is ½ hour prior to the 8:30 a.m. Shot Gun / 4-person Best-Shot.
Lunch courtesy of Patterson Dental.
